

# Diet Order Maintenance in SCM

July 25<sup>th</sup> 2016

- Each patient must have one active diet order.
- Discontinue the previous diet order first, before entering or activating a new diet order.
- Simply reinstating a previous diet will not alert Food and Nutrition Services of the new diet order. The previous diet order must be reordered as a net new order.

Order Summary	PRN	Order Date	Status
<b>FOOD &amp; NUTRITION</b>			
<input type="checkbox"/> NPO - except Meds ? After Midnight <Avail. Activations=1>		07/22/2016 After Midnight	Available for Activation
