

# Meaningful Use SCM Updates Go Live – September 25, 2017

On **September 25, 2017**, SCM will be updated to comply with the **Meaningful Use Stage 3** requirements. The following items will be impacted by this update:

- Verbiage to Allergies Summary review process and Patient Header
- InfoButton will be used to provide printed Medication Education to the patient
- Updates to Nursing Discharge Instructions, including *Discharge Note –Nursing* and *Patient Discharge Instructions Reports*
- ePrescribe workflow changes include, insurance benefit selection and prescription cancellation messages sent to community pharmacies
- Health Issues are required to be reconciled by the discharging Physician

Continuing Down the  
Road to Attestation
