

# Health Issues – SCM Update Go Live – September 25, 2017

On **September 25, 2017**, Health Issues (Diagnoses) in SCM will be updated to comply with the Meaningful Use Stage 3 requirements. The discharging provider is **required** to Approve the Health Issues List (Diagnoses).

- This can be done from the *Health Issues* icon. Maximize the Health Issue window to full screen and click, **Approve Health Issues List**.

Health Issue	Code	ICD-9	ICD-10	SNOMED CT	Type	Onset Date	POA	Rela
<b>- Admitting Dx (1)</b>								
+	Pneumonia	J18.9	486	J18.9	233604007	Admitting Dx		
<b>- Visit Problem (2)</b>								
+	Sepsis	A41.9	038.9	A41.9	91302008	Visit Problem		
+	Hypertension	I10	401.9	I10	38341003	Visit Problem		

- Or this can be done from within a *document*, by clicking the **Mark as Reviewed** (  ) button.

Health Issue	Description
<input checked="" type="checkbox"/>	Admitting Dx
<input type="checkbox"/>	Sepsis

**NOTE:** Health Issues are approved only once per patient's hospitalization. Once approved, the Approve Button will grey-out.
