

New to SCM for Physicians

Urinalysis and Urine Culture Selection Guide

Beginning June 13th, a new **Urinalysis and Urine Culture Selection Guide** will be in SCM order sets.

- Physicians must choose an **Indication** from the Selection Guide. This will generate **Urinalysis** and **Urine Culture treatment** recommendations based on the **IDSA Best Practice Guidelines**. If necessary, the physician may override the recommendation.

Bed Placement Order Set.. [3 orders of 95 are selected]
