

How to Access the SCM Practice Environment through the Wave

- 1) From the Wave, under the Education header, select **SCM Training Environment**.

- 2) Citrix will launch and the user will need to login with their AD username & password (same as email and/or the Hoag Portal).

- 3) Click on the SCM TRAIN 14.3 folder  which will bring the user to the SCM TRAIN14-3

icon. Click the icon  to launch the SCM Gateway.

- 4) The SCM Gateway will launch. Log into SCM with one of the following User Names. The password is always **123456**.

RNs: r6w01 through 27

HOI RNs: rnhoi01 through 27

Physician: md01 through 27 OR mdhoi01 through 27

ED: rmed01 through 27 OR rmeded01 through 27

Pharmacist: pharm01 through 11

How to Access the SCM Practice Environment through the Wave

5) Regarding eMAR: When entering new medication orders on a practice patient and in order for orders to cross-over to the eMAR, they must be verified by pharmacy.

(*Please note that **Not ALL** medications can be verified without additional steps performed by a Pharmacist. When this occurs, choose other medications for your practice.)

To verify medications in the Practice environment:

- i. Note the MRN # of the patient orders were entered on
- ii. Log in as the training Pharmacist username
- iii. Go to Find Patient icon and search for patient
- iv. Once patient is found, go to the Orders tab
- v. Click the Verify icon
- vi. Click OK
